LI: To create an acrostic poem

As we have learnt a bit about how rainbows are formed in Science and we have previously studied poetry in English, today we are going to combine both and create an acrostic poem about rainbows.

I am sure you are familiar with them but an **acrostic poem** is a **poem** where certain letters in each line spell out a word or phrase. Here is an example of one:

Reaching across the void,

Arching, leaning towards hope.

In stripes from red to violet.

Neat rows of deepening colour.

Bowing, where does the beauty lead us?

Oh, to a pot of gold?

Where all can find riches.

Task

Have a go at writing your own acrostic poem. Make it beautiful and decorative just like the colours of the rainbow.

Be adventurous with your artwork, perhaps you could create a collage or painting of a rainbow or even put your skills to the test and make a sweetie rainbow just like these (then you can have a delicious treat and eat it after):

Super cool skittles rainbow

Super cool smarties cake
