LI: To create a poem using  
poetic devices

## Task

Over the next two days, we are going to be creating our own poems about **Summer** using our rhyming words/sentences we thought of yesterday and the poetic features we learnt about last week.

Here are the things we must include in our poems:

- Internal rhyme
- Personification
  - Simile
  - Metaphor

Optional features you could also add:

- Alliteration
- Onomatopoeia

You will also need to think about what rhyming scheme you will use.

Either **A, B, A, B** or **A, A, B, B**

The sun beats down through the **clouds**,  
warming the skin of the **crowds**.

Beaches never see so many **guests**  
as they do at this time of the year - it is the **best!**

Vendors everywhere selling ice-cream,  
**instantly melting in the scorching sun it screams.**

Buckets and spades are in abundance too;  
**sand castles stand tall** until a wave appears out of the blue.

The sea is a home for all living things,  
**it is as busy as a party in full swing.**

It's waves are gentle close to the land,  
As this is where the people stand.

Sun cream is often applied,  
none of the guests want to be fried.

Sunglasses are a popular accessory,  
everybody acquires a pair at duty free.

Families and friends love to meet,  
children play until the day is complete.

Smiles and cheers all around,  
Summer is a delightful sound.

Here is a model

Summer poem that

follows the **A, A, B, B**

rhyming pattern

Success criteria:

**rhyme**

**Personification**

**Simile**

**Metaphor**
