Year 5 and 6 'Space Sleepover' Friday 3rd July 2020

Dear Parents,

It is with great excitement that I can confirm that we will be holding a new event for year 5 and 6 this academic year, the 'Sacred Heart Space Sleepover'. This event will include exciting activities for the children to take part in during the evening, before spending the night at school, in order to launch our near-space balloon from the school grounds as the sun rises! The activities that have already been planned are:

- A large mobile planetarium, where the children will get to look at the constellations in the darkness of the planetarium dome.
- A virtual reality experience, where the children will be able to take a virtual trip into space through the use of VR technology.
- The annual space launch, which this year will launch from the school grounds, with the prospect of a live video link from the edge of space!

This event is open to all children in Year 5 and 6, and further details surrounding the event will be released in the New Year. In the meantime if you have any questions regarding this event then please do not hesitate to contact me. Thank you for your continued support, and we are all looking forward to holding this very special event in the summer!

Yours sincerely,

Mr. Fowler
